CONTENTS

AMERICAN ASSOCIATION OF ECONOMIC ENTOMOLOGISTS, PROCEEDINGS OF FORTY-FIRST ANNUAL MEETING 3

APICULTURAL NOTES 285, 444, 629, 725, 845, 1011

COMMON NAMES OF INSECTS APPROVED FOR GENERAL USE BY AMERICAN ECONOMIC ENTOMOLOGISTS 825

COTTON STATES BRANCH, PROCEEDINGS OF FOURTH ANNUAL MEETING 729

CURRENT NOTES 276, 428, 614, 710, 829, 993

HORTICULTURAL INSPECTION NOTES 286, 438, 625, 723, 841, 1004

EDITORIAL 273, 426, 607, 707, 827, 987

LIST OF MEETINGS AND PAST OFFICERS xi

LIST OF MEMBERS xiv

NOTES ON MEDICAL ENTOMOLOGY 287, 448, 631, 728, 846, 1113

OBITUARY

FRANK HURLBUT CHITTENDEN 989

JAMES WALTER MCCOLLOCH 990

WARREN THOMPSON CLARKE 608

OFFICERS ix

PACIFIC SLOPE BRANCH, PROCEEDINGS OF THE FOURTEENTH ANNUAL MEETING 849

PLANT QUARANTINE AND INSPECTION 449

REPORT OF RESOLUTIONS COMMITTEE 508

REVIEWS 274, 427, 609, 708, 828, 992

THE ROCKY MOUNTAIN CONFERENCE OF ENTOMOLOGISTS 825

SCIENTIFIC NOTES 268, 420, 594, 704, 821, 984

PAPERS, ADDRESSES AND DISCUSSIONS

ALLEN, H. W. and BURRELL, R. W. Methods of Obtaining Emergence of Tiphia Adults from Imported Cocoons for Introduction Against the Japanese Beetle[1] 323

ALLMAN, S. L. Some Experiments on the Control of the Codling Moth in Australia 873

ARMITAGE, H. M. Timing Field Liberations of Cryptolaemus in the Control of the Citrophilus Mealybug in the Infested Citrus Orchards of Southern California 910

BALLOU, CHARLES H. Effects of Geranium upon the Japanese Beetle 289

BARNES, DWIGHT F. and POTTS, S. F. Adherence of Some Insecticidal Dust Materials to Growing and Mature Foliage 360, 957

BISHOPP, F. C. The Pigeon Fly—An Important Pest of Pigeons in the United States 974

BOTTIMER, L. J. Notes on Paradichlorobenzene and Naphthalene as Repellents Against Clothes Moth Larvae 570

BOURNE, A. I. Spraying for the Control of Onion Thrips in Massachusetts 679

BOYCE, A. M. The Walnut Husk Fly, *Rhagoletis juglandis* 861

BLISS, C. I. and CRESSMAN, A. W. Effects of Oil Concentration and Population Density on Camphor Scale, *Pseudaonidia duplex*, Control with Oil Emulsions[1] 213

[1]Withdrawn for publication elsewhere.

BRINLEY, FLOYD JOHN. Toxicity of Lead Salts to Insects 221
BURGESS, A. F. The Present Status of Gipsy Moth, Brown-tail Moth and Satin Moth Control 474
CAFFREY, D. J. A General Summary of the European Corn Borer Situation in the United States at the Close of 1928 167
CARTER, R. H. Compatibilities of Insecticides—I, Fluosilicates and Cryolite with Arsenates 814
CARTER, WALTER. The Purpose of Predicting Outbreaks of *Eutettix tenellus* (Baker) under Present Day Conditions 154
CARTER, WALTER and CRAWFORD, R. F. *Eutettix tenellus* (Baker) as a Factor in the Production of Nicotine for Insecticidal Purposes 158
CARTER, WALTER and COTNER, F. B. Isolation of Certain Yeast Forms from *Eutettix tenellus* Baker 237
COAD, B. R. Organization and Progress of Pink Bollworm Research Investigations 743
CLARK, S. W. Insect Pests Affecting Commercial Crops in the Lower Rio Grande Valley 789
COLE, F. R. Fumigation with Calcium Cyanide for the Control of the Greater and Lesser Bulb Flies 236
COLLINS, C. W. and HOLBROOK, J. E. R. Trapping Calosoma Beetles 562
CORY, ERNEST N. and SANDERS, P. D. Soil Treatment for Control of the Japanese Beetle 293, 556
CRESSMAN, A. W. Factors Affecting the Feeding Rate of *Rodolia cardinalis*[1] 61
CUTRIGHT, C. R. and HOUSER, J. S. A Laboratory Method for Determining the Attractiveness of Bands to Codling Moth Larvae 62
DANIEL, DERRILL M. Technique Employed in Transferring Parasites of the Oriental Peach Moth (*Laspeyresia molesta* Busck) 801
DAVIDSON, W. M. Insecticidal Tests with Oils and Alkaloids of Larkspur, *Delphinium consolida*, and Stavesacre, *Delphinium staphisagria* 226
DELONG, DWIGHT M. The Role of Bordeaux Mixture as a Leafhopper Insecticide 345
DEONG, E. R. and HUNTOON, M. Sulfur as an Insecticide 866
DOANE, R. W. and GILLILAND, O. J. Three California Ambrosia Beetles 915
DOZIER, H. L. Further Results with Fish Oil as an Adhesive 140
DOZIER, H. L. and BUTLER, H. G. Notes on the Rearing of *Ascogaster carpocapsae*, A Braconid Parasite of the Codling Moth 954
DOZIER, H. L. and BUTLER, H. G. The Life History and Control of the Grape Berry Moth in Delaware 132
DRAYTON, F. L. Bulb Diseases in Europe 485
DRIGGERS, BYRLEY F. Experiments with Talc and Other Dusts Used Against Recently Hatched Larvae of the Oriental and Codling Moths 327
DUNHAM, W. E. The Influence of External Temperature on the Hive Temperatures During the Summer 798
DUNNAM, E. W. Experiments on the Relation Between the Location of Cotton Fields and the Intensity of Boll Weevil Infestation the Succeeding Season 750
EDDY, C. O. and GEDDINGS, E. N. Determining Hydrocyanic Acid Gas Concentration in Fumigation Experiments 366
ESSIG, E. O. Origin of the Bean Weevil, *Mylabris obtectus* Say 858
EWING, K. P. Effect on the Cotton Plant of the Feeding of Certain Hemiptera of the Family Miridae 761
FELT, E. P. The Need for Investigations on Shade Tree Insects 417

[1]Withdrawn for publication elsewhere.

FINK, D. E. A Study of the Digestive Enzymes of the Potato Beetle at Varied pH[1] 399
FLANDERS, STANLEY E. The Production and Distribution of Trichogramma 245
FREEBORN, STANLEY B. and WYMORE, FLOYD H. Attempts to Protect Sweet Corn from Infestations of the Corn Ear Worm, *Heliothis obsoleta* (Fabr.) 666
FLEMING, WALTER E. and BAKER, FRANCIS E. The Hot Water Treatment of Nursery Plants 314
FLETCHER, ROBERT K. Uneven Distribution of *Heliothis obsoleta* (Fabr.) on Cotton in Texas 757
FLINT, W. P. and GOFF, C. C. Banding for Codling Moth Control 675
FRIEND, R. B. The Control of Asiatic Beetle in Lawns[1] 323
FROST, S. W. Fourth Contribution to a Study of Baits, with Special Reference to the Oriental Fruit Moth 101
GINSBURG, JOSEPH M. A Correlation Between Oil Sprays and Chlorophyll Content of Foliage 360
GAINES, J. G. and GLASGOW, HUGH. The Carrot Rust Fly Problem in New York 412
GLASGOW, HUGH. Mercury Salts as Soil Insecticides 335
GLASGOW, HUGH and COOK, HAROLD T. The Onion Maggot Situation in New York 400, 683
GRAY, GEO. P. and KIRKPATRICK, A. F. The Protective Stupefaction of Certain Scale Insects by Hydrocyanic Acid Vapor 878
The Resistance of Black Scale, *Saissetia oleae*, to Hydrocyanic Acid Fumigation 893
GROSSMAN, EDGAR F. Thermotropism of the Mexican Cotton Boll Weevil 662
Diluted Calcium Arsenate for Boll Weevil Control 972
GUI, HARRY L. Notes on the Potato Scab-Gnat, *Pnyxia scabiei* Hop. 397
HADLEY, C. H., JR. Preventing the Spread of the Japanese and Asiatic Beetles 469
HAGAN, HAROLD R. The Fig-Insect Situation in the Smyrna Fig District 900
HALLOCK, HAROLD C. Known Distribution and Abundance of *Anomala orientalis* Waterhouse, *Aserica castanea* Arrow and *Serica similis* Lewis in New York 293
HAMILTON, CLYDE C. The Growth of the Foliage and Fruit of the Apple in Relation to the Maintenance of a Spray Coating 387
HARMON, S. W. The Bud Moth in Western New York 660
HARNED, R. W. Report of the Southern Plant Board 456
The Present Status of the Sweet Potato Weevil in the United States 502
Entomology in the South Today[1] 736
HARTZELL, ALBERT. Tolerance of Different Species and Varieties of Plants to Naphthalene Vapor 354
HARTZELL, F. Z. Relation of Snow Cover to Infestation by the Grape Berry Moth, *Polychrosis viteana* Clemens 126
Application of One of Pearson's Probability Theorems and Some Special Probability Equations to Entomological Data 202
HASEMAN, LEONARD and BURKE, VIRGIL F. A Determination of the Lethal Dosage of Arsenic for Missouri and Colorado Codling Moth Larvae 655
HEADLEE, T. J. Administrative Phases of Teaching, Research, Regulatory and Extension Entomology 551
An Operation in Practical Control of Codling Moth in a Heavily Infested District—Third and Final Report 89
Eastern Plant Board 454

[1]Paper not received. Withdrawn for publication elsewhere.

HERMS, W. B. The Experimental Method as Applied to Entomological Investigations 45
A Field Test of the Effect of Artificial Light on the Behavior of the Codling Moth, *Carpocapsa pomonella* Linn 78
Breeding Habits and Preliminary Stages of the Hippelates Fly 858
HERBERT, F. B. and LEONARD, M. D. Observations on the Oil-Nicotine Combination for the Control of the Codling Moth and Other Apple Insects in the Pacific Northwest 72
HERRICK, GLENN W. Two Scale Insects, Their Bionomics and Control 198
HINDS, W. E. Preliminary Studies Regarding the Physical Qualities and Distribution of Sodium Silicofluoride Dusts 768
HINDS, W. E. and SPENCER, HERBERT. Trichogramma Experiments in 1928 for Control of the Sugarcane Borer 633
HOIDALE, P. A. The Mexican Fruit Worm Situation 786
HOLLOWAY, T. E. A Consideration of the "Cold Water Treatment" in the Control of the Sugar-Cane Mealybug[1] 773
HOUGH, W. S. Further Studies of the Relative Resistance to Arsenical Poisons of Codling Moth Larvae[1] 71
HOUSER, J. S. and HUBER, L. L. Nutrition as a Factor in the Responses of the European Corn Borer 171
HUCKETT, H. C. A Contribution to the Study of Control Measures for Cucumber Beetles, *Diabrotica duodecimpunctata* Oliv. and *vittata* Fabr. 405
HULL, FRANK M. The Plant Louse Problem of the Texas Gulf Coast 774
Some Possible Means of Control of the Damage Caused by the Cotton Leaf Worm Moth to the Fig 792
HUTSON, RAY. The Effects of Moving Bees at Orchard Blooming Time 522
JACOBSEN, W. C. Western Plant Quarantine Board 459
JONES, R. M. Leafhoppers (Homoptera, Cicadellidae) found on the Sugar Beet in Iowa 243
KISLIUK, MAX, JR. A Brief Summary of Fruit Fly Surveys in Argentina, Spain and the Canary Islands 478
KELLERMAN, K. F. Citrus Canker Eradication 656
KNIGHT, PAUL. What Shall We Teach Students in Beginning Entomology? 213
LARRIMER, W. H. and REEVES, GEORGE I. The Alfalfa Weevil in Alfalfa Meal 491
LEWIS, HAROLD C. A Method of Preparing Insect Mounts 980
LIPP, J. WILLIAM. Preliminary Tests with Possible Repellents of the Oriental Peach Moth 116
LYLE, CLAY. Further Tests of Cutworm Bait Poisons 797
MACLEOD, G. F. Some Observations on Japanese Beetle Injury, Part II—Sprayed Communities 320
MARLATT, C. L. Recent Developments in Federal Plant Quarantine Activities 461
MCCUBBIN. W. A. Potato Wart 496
MCINDOO, W. E. A Substitute for Arsenic as an Insecticide[1] 226
MCLAINE, L. S. The Basis and Aims of Plant Legislation 449
MCPHAIL, M. and BLISS, C. I. Seasonal History of the Mexican Fruit Worm, *Anastrepha ludens* L. in Cuernavaca[1] 140
MILLER, RALPH L. Manganese Arsenate as a Control for the Codling Moth 340
METZGER, F. W. and RICHMOND, E. AVERY. A Trap for the Japanese Beetle 299
MOTE, DON C., WILCOX, J. and HILLS, O. A. The Strawberry Crown-Moth in Oregon 936
MOZNETTE, G. F. Poor Results Secured in Some Preliminary Airplane Dusting of Pecans for the Control of the Pecan Leaf Case-Bearer 781

[1]Withdrawn for publication elsewhere.

MUNRO, J. A. A Study of the Factors Influencing the Yield of Honey During the Main Nectar Flow 518
NEWELL, WILMON. Comments on Entomology in the South During the Past Twenty-Five Years 732
NOLAN, W. J. Success of the Artificial Insemination of Queen Bees at the Bee Culture Laboratory 544
OSBORN, HERBERT. Leaf-Hopper Immigrants of Economic Interest 209
PARK, O. W. The Influence of Humidity upon Sugar Concentration in the Nectar of Various Plants 534
PARKER, H. L. *Pyrausta nubilalis* in Europe; Notes on Infestation and Parasites from 1926 to 1928 194
PARKER, H. L., THOMPSON, W. R., DERIPPAS, P. and KOZLOVSKY, S. A Study of the Abundance of *Pyrausta nubilalis* in Corn, *Zea mays*, in Southwestern France 183
PARKER, H. L., VANCE, A. M., SMITH, H. D. and GAMKRELIDZE, W. *Pyrausta nubilalis* Hubn. in Europe: Notes on Infestation and Parasitism from 1926–1928 688
PATCH, EDITH M. The Apple Aphid and the Citrus Aphid: *Aphis pomi* DeGeer and *A. spiraecola* Patch 698
PATCH, L. H. Some Factors Determining Corn Borer Damage 174
PAYNE, LOYAL F. A New Method of Controlling Feather Mites 819
PEAIRS, L. M. Mexican Bean Beetle[1] 399
PEIRSON, H. B. Observations on the Birch Leaf Mining Sawfly 588
PETERSON, ALVAH. Some Factors that Limit Artificial Control Efforts for the Oriental Peach Moth, *Laspeyresis molesta* Busck 108
PHILLIPS, E. F. Definition of a Commercial Beekeeping Region 527
PHIPPS, C. R. *Syneda alleni* Grt., A Cutworm Destructive to Blueberry in Maine 137
PLANK, H. K. Nematodes Parasitic on *Diatraea saccharalis* 982
Fungi Attacking *Diatraea saccharalis* Fabr. 983
POOS, F. W. Leafhopper Injury to Legumes 146
REGAN, W. S. The Unsprayed Check Tree as an Indicator of Seasonal Codling Moth Activity 65
REINHARD, H. J. The Value of Spring Emergence Records on the Cotton Flea Hopper, *Psallus seriatus* 765
RICHMOND, E. AVERY and METZGER, F.W. A Trap for the Japanese Beetle 299
ROARK, R. C. Recent Progress in the Chemistry of Derris 378
United States Insecticide Statistics for 1928 699
ROARK, R. C. and NELSON, O. A. Maximum Weights of Various Fumigants which Can Exist in Vapor Form in a 1,000 Cubic Foot Fumigating Chamber 381
ROBINSON, R. H. Facilitating the Removal of the Spray Residue 693
SAALAS, UUNIO. A Short Review of Economic Entomology in Finland 701
SAFRO, V. I. Some Observations on Japanese Beetle Injury, Part I—Unsprayed Communities 317
Extension Entomology in Relation to Research 553
SASSCER, E. R. Recent Interceptions of Plant Diseases[1] 507
SHOTWELL, R. L. Some Notes on the Grasshopper Situation in North-central Montana 581
SIEGLER, E. H. Digest of Additional Experiments in the Application of Paradichlorobenzine in Solution Against the Peach Borer 217
SIEGLER, E. H., BROWN, LUTHER and YOTHERS, M. A. A Second Report on Chemically Treated Bands for the Destruction of Codling Moth Larvae 966
